## **LAB: Assignment 6**

Objective: To create simple Network Topologies Using GNS.

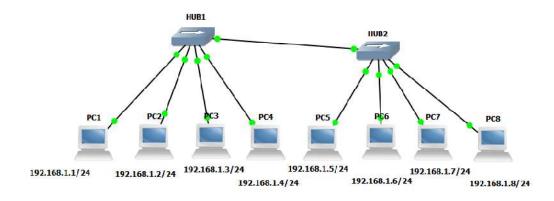

Instructions: The instructor is required to discuss the following questions with the students.

Students are required to make solution for each question and check connectivity using PING command.

## Q1. Create BUS topologies as below.

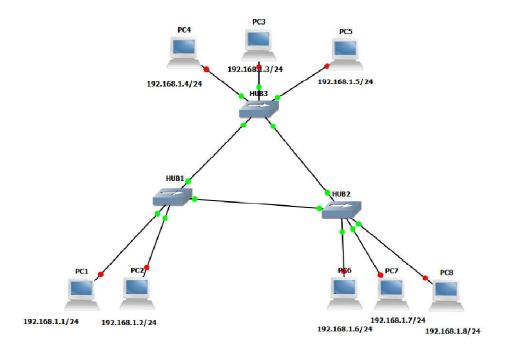

(a)

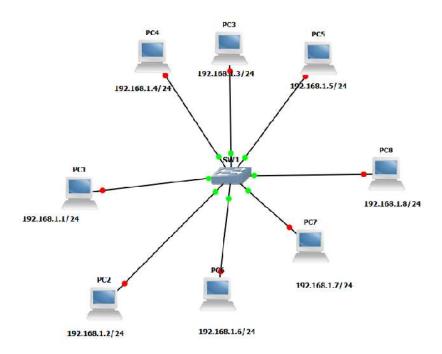

(b)

## Q2. Create the following Ring Topology.

## Q3. Create the following Ring Topology.

Q4. Create the following Tree Topology.
